Claims 1-17 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance of claims 1-17:

The prior art does not teach or render obvious "monitoring a plurality of discrete print media path components of said printing device" and "recording the number of individual uses of said plurality of discrete print media path components" as claimed in exemplary claim 1. The prior art is Yamashita et al (USPN 5594529) monitors a plurality of discrete print media path but records paper uses not component uses.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
